I completed my GCSEs at Aylsham High School in July 2021 (see below). Following this, I attended Norwich City College completing a level 3 diploma in Architecture 3D/ interior design, finishing the course with a grade of a high merit (Distinction in the 1st year). I am currently looking for full time employment. I would enjoy working in a busy environment as part of a team and dealing with members of the public. I am well-organised, friendly, reliable, punctual and honest. I can apply myself to any given task and will work hard to complete it.

Work Experience

Sales Assistant

The White Company-Norwich

October 2025 to December 2025

1 October 2021 - I started a local cleaning job for two holiday lets (see attached reference) and also ad hoc cleaning for a lady in Marsham.

October 2021 - I worked part time in a busy fish & chip shop in Norwich city centre. My duties included: serving the public, helping to cook & prepare food, cleaning tables & washing up.

August 2023 - I worked at Tesco during night shifts along side cleaning and college for a few months (Aug-Nov) which helped to keep me organised with my busy schedule I was running at the time and managing my small business along side.

2021-2025 - Alongside college I worked as a cleaner self employed for a variety of clients. Making sure to have great communication with my clients in order to complete the best service possible. I've learnt to be punctual and reliable to my clients and work to be best of my abilities which has broadened my client base. However now finishing college I have moved on to seek new work and fresh opportunities.

October-December 2025 - along side cleaning I was hired as a seasonal sales assistant working at The White Company, where I had to balance excellent customer service with the demands of a busy retail environment. My role involved advising customers, maintaining the brand's high visual standards, processing payments, managing stock, and supporting the wider team during the Christmas period.

March 2026- current- Since starting at Crew Clothing Company, I have gained confidence in working with customers and helping them find products that suit their needs while creating a friendly and welcoming shopping experience. I have learnt how to organise and maintain the stockroom, sort and process deliveries, replenish stock, and keep the shop floor looking tidy and well presented. Working in a busy retail environment has helped me improve my communication, teamwork, and time management skills, as well as learn how the day to day running of a store works. I enjoy taking on different responsibilities throughout the day and supporting both customers and colleagues whenever needed.
