- I come from a Customer Service, Sales and Administration background and have worked in a variety of roles within the public and private sectors. I am looking for a position where I can utilise my skills and build upon my future career.

Work Experience

Administrator

UEA IT Services-Norwich

August 2021 to August 2021

Worked as part of the UEA Student Start of Year team. Exciting role in which I have been actively involved in the pre-planning arrival of new Students starting Term at UEA. To date, I have been producing encoded Campus Cards, issuing out the cards directly to the students, providing photo service to students without one, offering advice on all manner of 'settling in' as a newcomer, issuing hardware to Tutors, Staff and Students, e.g. docking stations, ethernet cable, etc. and advising on Wi-Fi connection issues.

IT/Project Co-ordinator

KIER/Anglian Water-Norwich

June 2021 to July 2021

Short-term Temporary role assisting with the integration of new system and procedures within the company. Heavy Plant machinery, PPE, Licensing, Certification and Haulage-legal power tools needed to be audited and verified onto the new system and any system fails, glitches and limitations were reported to Management and planning devised to investigate and resolve.

Home Renovator/Project Manager

Home Renovation-Norwich

September 2019 to May 2021

My partner and I had bought our first home together in the Golden Triangle area of Norwich. Before, during and after the Covid-19 pandemic, we had been renovating it. Dated 1898, it had required a lot of work, both personal and outsourced to various specialists. I learned how to project manage, source the right people, keep budgets tight and time-manage throughout that difficult time of lockdown restrictions.

Prisoner Administrator

MTC Novo Prison Services-Norwich

July 2018 to August 2019

My primary role was to help ex-offenders and their assigned case worker with court appearance reminders, issuing of warrants, tags and bail requirements. I was fully aware of safeguarding arrangements and skilled at dealing with confronting and difficult situations. I was assigned further projects by my manager to create and maintain a staff holiday/sick leave planner

on Excel and a diary for visiting Management from London.

Oxfam Voluntary Service-Norwich
March 2018 to June 2018

I volunteered for Oxfam in Norwich, mainly working front-of-house, serving and assisting the customers, but I also helped-out with organising new donations which arrived on a daily basis.

I.T. Tutor/Accounts Admin

F1 Training/Learn Direct-Norwich
April 2017 to January 2018

I provided basic I.T. tutoring for clients referred from the Jobcentre. My role also involved accounts administration, covering reception duties (meet and greet) for 'Life in the UK' exams and acting as invigilator for 'Skills for Life' examinations. Sadly the company has gone out of business.
