Detail-oriented Administration and IT Support professional with experience working in system-driven office and customer-facing environments. Strong background in digital record keeping, data management, document production, and supporting users across multiple software platforms. Recently completed a Level 3 IT Smart Technology Bootcamp, developing hands-on technical skills in IT support, networking, smart technologies, and troubleshooting. Confident using Microsoft Office, Google Workspace, CRM and case management systems, and cloud-based tools to support efficient workflows, data accuracy, and secure information handling. Seeking an Admin, IT Support, or Junior IT role where I can combine strong organisational skills with growing technical expertise to support users, systems, and business operations.

Work Experience

General Operative

Great Yarmouth Arc Cinema

April 2025 to Present

- Delivered professional customer support in fast-paced, system-driven environments
- Used rota systems, booking platforms, tills, and digital reporting tools
- Demonstrated adaptability, resilience, and effective communication
- Maintained accuracy while working with multiple digital systems

Care Assistant

Manor Court Home Care

October 2024 to May 2025

- Maintained accurate records and followed structured care plans
- Administered medication and supported daily living activities
- Demonstrated confidentiality, reliability, and attention to detail
- Built strong communication skills working with clients and teams

Case Administrator

Norwich Probation Service

April 2023 to October 2023

Maintained accurate and confidential digital client records within secure systems

- Prepared formal documentation and correspondence
- Logged breaches, monitored compliance, and escalated issues appropriately
- Supported diary management, meetings, and system navigation
- Helped improve digital filing and data-handling processes

Control Centre Operator

Great Yarmouth Borough Council

December 2021 to June 2022

- Maintained and updated digital records and databases with a focus on accuracy and GDPR compliance.
- Produced letters, reports, and internal documents using Microsoft Office and CRM systems.
- Used multiple IT platforms to schedule meetings, track casework, and manage follow-ups.
- Supported colleagues with digital tools and resolved minor technical issues.
- Liaised across departments to maintain efficient information flow.
