Work Experience

Care Assistant

Clark James Homecare-Norwich, Norfolk

November 2025 to Present

I have recently rejoined Clark James Homecare as I did really love the job previously and helping people

Customer Service Supervisor

Ultimo Electronics Limited-Norwich

August 2021 to Present

I began my journey with Ultimo Electronics as a Customer Service Agent, where I supported customers with order inquiries, product assistance, and returns. I also took pride in helping customers find the best products to suit both their needs and budget.

In April 2022, I was promoted to Supervisor—a role that not only includes my previous responsibilities but also involves handling escalations with care and efficiency. I lead and train a team of customer service agents, ensuring high-quality communication and service standards across all interactions.

I take initiative in making sound decisions in any situation and continuously strive to grow and improve while on the job. Every day is an opportunity to learn, and I embrace that fully.

Care Assistant

Clark James-Norwich

June 2020 to August 2021

This role involved traveling to clients' homes to provide hands-on support with daily tasks such as mobility assistance, meal preparation, and medication management. My priority was always to ensure each individual's needs were met with care and respect.

Every client interaction was unique and personal. I encouraged open communication, giving clients the space to express their preferences and make their own choices. I believe in supporting independence—helping clients feel empowered and in control of their lives, while also being someone they could rely on when something didn't feel right.

Customer Service Assistant

Quiz Clothing House Of Fraser-Norwich

February 2019 to March 2020

At Quiz within House of Fraser, I managed a wide range of responsibilities, often working independently and taking on both supervisor and managerial duties. This role required a strong sense of initiative, reliability, and attention to detail.

I was responsible for implementing monthly visual guidelines, transforming the shop floor layout in line with new directives. I tracked daily performance metrics, comparing current figures with previous years and monitoring KPIs such as ATV (Average Transaction Value) and IPS (Items Per Sale).

Standards were key to the store's presentation—I ensured tags were correctly placed with proper spacing, maintained a full size range on display, prioritized replenishment, and strategically positioned new arrivals at the front to maximize visibility. Visual merchandising was a daily focus, with a keen eye for showcasing new stock effectively.

Operational tasks included managing incoming and outgoing stock, processing returns to the web or main store, and confirming deliveries. I handled customer returns with care, ensuring items were suitable to be resold. I also distributed company assets to vendors as needed.

In addition, I responded to important emails, maintained cleanliness on the shop floor, provided basic training for new staff, and worked confidently on the tills.

Working solo at times meant I took full ownership of the store's operations. I take pride in being dependable, hardworking, and always ready to go the extra mile to ensure everything runs smoothly.
