I enjoy being busy and I am a hardworking person, I have had a lot of hands on experience in dealing with customers through working as a Trainee within a Hair salon as well as working in a bar. Working within this environment has helped my confidence to develop and I am not shy about having conversations and interacting with new people. I am an effective team worker who enjoys being part of a group and supporting colleagues; however I am comfortable working independently and am able to use my own initiative. I am a friendly, warm individual who is easy to approach and I like working within a social environment. I am very passionate about delivering excellent customer service and I am currently looking to develop this within a new company.
