Claims Handling

Risk Management
Team Work
Target Driven
Adaptability

Employment Record

July 2025 – present

Company: Gasway

Position: Service and deployment coordinator

- **Coordinating a team of ten engineers:** Proactively booking appointments on engineer depending on the area they cover and their skill set. For example some engineers could perform gas safety checks whereas others could perform breakdown resolutions and on other types of boiler such as oil.
- **Calling customers:** this may seem basic but it was a very important aspect as it involved moving appointments forward when possible and also providing bad news if the engineer was off, had fallen behind or if an emergency had been reported.
- **Collaboration with other departments:** on occasion, as we only deal with the heating and hot water element, other trades are required, such as builders, plasterers and so on. This means having to liaise with the relevant department and ensure we attend straight after they have finished to minimise the disruption to the tenant.

August 2024 – May 2025

Company: Haart Estate Agency

Position: Property Manager

- **Manager of a property portfolio:** Dealt with approximately 250 properties and deal with maintenance issues that are reported by tenants
- **Inventories and property visits:** Completing pre move in reports detailing the condition of the property. Also conducting mid tenancy visits, just to ensure no breaches are evident and to ensure the property is being well maintained
- **Various methods of correspondence:** Not just email or phone correspondence, but tenants sometimes came into branch and so face to face interaction, which was a first for me.

September 2021- June 2024

Company: Ethical Claims Services Group

Position: Claims Negotiator

- **Manage Total Losses and Engineering Claims:** Develop expertise in handling complex total loss and engineering claims, a new area of specialisation.
- **High Volume Call Management:** Handle over 50 calls daily, efficiently managing communications with policyholders, brokers, repairers, and engineers.
- **Email Correspondence:** Respond to a high volume of emails daily, ensuring timely and accurate information exchange with stakeholders.
- **Policyholder and Broker Updates:** Provide frequent and clear updates to policyholders and brokers, maintaining a high standard of customer service.
- **Complaint Handling:** Utilise strong complaint handling skills to effectively manage and resolve issues with irate policyholders, maintaining professionalism and client satisfaction.

October 2017- September 2021

Company: Coplus

Position: Customer Advisor/ Technical Specialist

- **Claims Status Updates:** Provided status updates on both non-fault and fault claims, ensuring clients were informed about the progress of their claims.
- **Fault Claims Management:** Transferred clients with fault claims to their insurance company for repair arrangements, as we operated on behalf of a broker.
- **Non-Fault Claims Coordination:** Coordinated with suppliers to arrange repairs and, if necessary, a hire vehicle for clients with non-fault claims.
- **Customer Service Excellence:** Cultivated exceptional customer service skills through professional interaction with clients, handling inquiries, and addressing complaints with empathy and efficiency. Developed a reputation for providing personalised and attentive service.
- **Legal Assistance Coordination:** Instructed solicitors for clients and/or passengers who suffered injury in non-fault accidents, ensuring they received appropriate legal support.

August 2017- October 2017

Company: Aviva

Position: Motor Claims Handler

- **Daily Stakeholder Interaction:** Engaged with policyholders, repairers, and third-party insurer's daily, ensuring efficient communication and resolution of claims.
- **Claims Portfolio Management:** Managed a personal portfolio of claims, demonstrating strong diary management, organisation, and planning skills.
- **Liability Discussions:** Conducted difficult conversations regarding liability, showcasing effective negotiation and conflict resolution abilities.
- **Claims Processing:** Handled end-to-end claims processing, maintaining high standards of accuracy and attention on to detail.
- **Customer Service Excellence:** Provided exceptional customer service, addressing policyholder concerns and inquiries promptly and professionally.

December 2014- August 2017

Company: Evander Glazing & Locks

Position: Claims Handler

- **Home Insurance Claims Management:** Managed home insurance claims from start to finish, serving as the individual claims owner.
- **New Instruction Processing:** Entered details of new instructions received verbally or via email from customer's insurance companies.
- **Customer Communication:** Contacted customers to confirm the nature and extent of damage, ensuring accurate information gathering.
- **Survey Coordination:** Arranged for surveyors to conduct site visits, take photographs, and collect measurements for damage reports.
- **Site Report Preparation:** Compiled detailed and professional Site Reports based on surveyor data, submitting these to insurance companies for authorisation.
- **Goods Ordering and Scheduling:** Ordered necessary materials and coordinated with customers to schedule fitting dates, using deployment intelligence.
- **Excess and Betterment Payments:** Managed payment processes for insurance excess and any betterment required.
- **Handling Declined Claims:** Delivered difficult news regarding claim denials with professionalism and empathy, maintaining calm and clear communication under pressure

April 2009- December 2014

Company: Swinton Insurance

Position: Operational Support Analyst

- **KPI Development and Implementation:** Analysed potential income increase if sales executives reached 85% Customer Facing Time (CFT) target; recommended making CFT a core KPI, leading to improved sales executive availability, reduced customer waiting times, increased sales, and higher profits.
- **Resource Utilisation Analysis:** Completed monthly departmental analysis and regularly evaluated resource usage to assist the call center manager in effectively allocating resources, ensuring high Service Level Agreements (SLAs) were met, especially during peak periods like summer and Christmas holidays.
- **Training and Coaching for New Starters:** Conducted write-off training sessions for new starters, many of whom lacked previous insurance or call centre experience. Engaged new employees in discussions about the impact of write-offs, resulting in fewer errors and significant income savings during their initial months.
- **FAQ Guide Creation and Maintenance:** Authored and continuously updated an FAQ guide for home sales executives, providing a reliable information resource that helped them develop their knowledge and respond to customer queries confidently and efficiently.
