

JOSHUA ADAMS

OBJECTIVE

My objective within a business is always to perform my duties to the best of my abilities with the aim of achieving the best outcome possible for the business, myself and my colleagues. I am, more often than not, driven by the satisfaction of completing an objective to a high standard and feel that tangible gratification or sense of achievement is vital to being a happy and productive employee.

EXPERIENCE

SALES SUPPORT EXECUTIVE – VINCENT BURCH MORTGAGE SERVICES **June 2025 – Present**

In this newly created role, I was tasked with retaining and recapturing business opportunities within a specialist mortgage services firm by leveraging my previous telemarketing experience. I proactively contacted previous clients and followed up on unconverted enquiries, successfully retaining nearly 200 clients to date. Alongside client engagement, I audit and track mortgage advisor performance, providing weekly reports to senior management, and manage the distribution of inbound leads through the central business inbox to ensure timely follow-up. My role requires strong organizational and communication skills, a confident and professional phone manner with effective tonality, and a high standard of customer service to coordinate lead management, maintain accurate records, and support advisors with day-to-day and ad hoc requests.

APPOINTMENT SETTER – THE LEAD GEN DEPARTMENT

Feb 2025 – June 2025

I have worked as an Appointment Setter for The Lead Gen Department, a lead generation agency focused on delivering high-value prospects to clients in talent acquisition and online marketing. I engaged directly with senior decision-makers—CEOs, CMOs, founders, and department heads—to position our clients' services in a way that aligned with their business goals and secured qualified meetings. This remote role sharpened my ability to manage my own time effectively, communicate with confidence, and hold strategic conversations with high-level professionals. I consistently performed at a high level, securing meetings from day one and was regularly praised for sounding more senior than my years, with strong tonality, cadence, and listening skills.

- Resistant Materials

APPOINTMENT SETTER – SWITCH MY BUSINESS GROUP LTD

Aug 2024- Sept 2024

As an appointment setter for SMBG, I was tasked with independently sourcing prospects and conducting outbound cold calls to assist small business owners in reducing payment processing costs while offering enhanced hardware and user experiences. I quickly proved effective, securing my first appointment within two hours of calling under the company's name. During my first week, I generated 13 high-quality business opportunities, outperforming my more experienced colleagues. I consistently upheld this level of performance, regularly booking up to 5 appointments per day from an average of 210 calls. Although I found the role highly rewarding, I later discovered the company was not legitimate. I am now seeking a similar opportunity within a reputable and professional organization.

WAREHOUSING AGENT – PARCELFORCE WORLDWIDE RMG

Nov 2020- Aug 2024

During my time within Parcellforce, I was responsible for the efficient handling, storage, and transportation of high volumes of parcels, processing thousands of units daily in a fast-paced logistics environment. Duties included maintaining the organization of stock within the facility, ensuring accurate sorting and timely dispatch of deliveries. Operated and supported the upkeep of complex multi-person machinery, adhering to all safety standards and procedures. This physically demanding role required strong attention to detail, consistent productivity, and the ability to meet demanding workflow schedules over an extended period of service.

APPOINTMENT SETTER/LEAD GENERATOR – ANGLIAN HOME IMPROVEMENTS

Feb 2017- Oct 2020

I worked in a proactive team contacting existing, unsold and 3rd party customers to book appointments and generate new business opportunities. I enjoyed the solution based selling this role had to offer as I felt gratified after booking appointments, knowing I had satisfied both the customer and the business.

ABOUT ME

I am passionate about outdoor activities, particularly mountain hiking and fell walking, with most of my experience in wilderness areas, especially the Lake District. I possess strong bushcraft skills, which enhance my outdoor adventures. Recently, I have also become an avid golfer, playing over 50 rounds in my first six months and improving my handicap from 48 to 23 during that time. Additionally, I have a keen interest in technology and enjoy spending time at my computer, gaming and researching topics that I find interesting. This blend of interests allows me to appreciate both nature and innovation, fostering a balanced lifestyle.
