- Inbox and diary management
- Problem solving and cross-team collaboration
- Minute taking and documentation

PERSONAL PROFILE

Experienced professional with over eight years of work within fast-paced NHS healthcare environments, now specialising in administrative and business support functions. Currently on secondment as a Clinical Support Administrator, gaining hands-on experience in inbox management, appointment coordination, record management, data handling, and operational support. Highly organised, detail-oriented, and confident managing multiple priorities while maintaining accuracy, confidentiality, and excellent communication. Experienced in supporting multidisciplinary teams, liaising with patients and healthcare professionals, and contributing to the efficient delivery of clinical services. Seeking to further develop a career in healthcare administration, where strong organisational skills, healthcare knowledge, and a proactive approach can support high-quality patient care and service delivery.

WORK EXPERIENCE

CLINICAL SUPPORT ADMINISTRATOR (SECONDMENT) | MENTAL HEALTH LIAISON, NORFOLK & NORWICH UNIVERSITY HOSPITAL

September 2025 – Current

- Provide administrative support to a busy healthcare service, ensuring smooth day-to-day operations
- Manage shared inboxes, prioritising and responding to internal and external queries
- Maintain accurate digital records and update internal systems
- Coordinate appointments, meetings, and schedules across multidisciplinary teams
- Support reporting processes through data entry and tracking using Excel
- Liaise with internal teams and external stakeholders to ensure efficient communication and workflow
- Handle confidential information in line with data protection and information governance policies

ASSISTANT PRACTITIONER | MENTAL HEALTH LIAISON, NORFOLK & NORWICH UNIVERSITY HOSPITAL

May 2022 – Current

- Manage sensitive documentation and maintain accurate digital records in line with information governance and data protection requirements.
- Collect, input and maintain KPI data using Excel and internal systems, supporting performance monitoring, audits and service reporting.
- Monitored and managed a shared team Outlook inbox, responding to internal and external queries and prioritising communications appropriately.
- Coordinate communication between medical, nursing and social care teams to support efficient decision making and smooth service delivery.
- Prioritise and organise a high-volume workload, managing competing deadlines in a fast-paced, high-pressure environment.
- Analyse healthcare records to understand patient history and risk. Communicate findings clearly to senior staff.
- Confidently deliver crisis intervention to support patients in distress.

- Workload prioritisation, scheduling, and deadline management
 - Strong verbal and written communication
 - Developing wellbeing initiatives
-

TRAINING

- Conflict resolution
 - Information governance and data security
 - Health, safety and welfare
 - Equality, diversity and human rights

ADDITIONAL INFORMATION

- Full UK driving license
- Strong interest in Administration and business/project support roles

ASSISTANT PRACTITIONER | JULIAN HOSPITAL, NORFOLK & SUFFOLK FOUNDATION TRUST

April 2021 – May 2022

- Effectively coordinate and delegate duties to ensure seamless shift operations and timely task completion.
- Regularly update important documents and care plans for the safety and wellbeing of patients.
- Actively contributed to daily multidisciplinary team meetings, collaborating with a range of health and social care professionals to support coordinated care.
- Developed strong rapport with individuals and families, ensuring their needs were understood and appropriately addressed.
- Regularly took minutes in weekly patient meetings and prepared professional written reports to support effective communication and workflow.

ASSISTANT PRACTITIONER | HELLEDON HOSPITAL, NORFOLK & SUFFOLK FOUNDATION TRUST

July 2019 – April 2021

- Provided emotional and practical support to service users in a fast-paced environment.
- Oversaw the intake and coordination of care for new service users, ensuring compliance with internal and legal procedures.
- Updated digital clinical notes with attention to detail and timeliness to track service user progress and risk.
- Developed and implemented care plans for service users in crisis.
- Collaborated with the multi-disciplinary team and clearly communicated any concerns.
- Demonstrated respect, compassion and professionalism to maintain high standards for diverse service user groups.

ASSISTANT PRACTITIONER | COMMUNITY MENTAL HEALTH TEAM, NORFOLK & SUFFOLK FOUNDATION TRUST

June 2018 – July 2019

- Managed a caseload of 20+ service users with severe and enduring mental illness.
 - Established trust and successful working relationships through a person-centered approach.
 - Carried out and updated assessments and care plans within set timeframes.
 - Monitored and reviewed intervention outcomes, making changes where necessary, to ensure positive results for my service users.
 - Managed own diary and coordinated travel arrangements for community visits, ensuring effective time management.
 - Scheduled regular appointments for service users and made rooms bookings.
 - Worked closely with a multi-disciplinary team and collaborated with local authorities, medical professionals and other external agencies to achieve desired outcomes for our service users.
-
