I consider myself a highly motivated, mature and hardworking individual who has undertaken and passed three BTEC courses and volunteered at a local Theatre and a Charity.

I've also undertaken a Public Health course, which has allowed me to develop my skills in working within a people-based environment.

This has also helped me develop my time management skills and helping me have a wider perspective on dealing with matters that are varied and complex.

I communicate well with a mature attitude with people of a variety of ages from different backgrounds and have a strong interest in people from all walks of life. I am considered an excellent listener and able to take instruction and develop relationships with colleagues, peers and customers, understanding the need to be clear in my actions and role.

I combine this with a good sense of humour and approach all tasks with a "can-do" attitude, feeling able to contribute to a positive working environment.

I work well with dealing with a variety of queries, which range from helping my fellow colleagues to dealing with the general public.

I feel I could consolidate and develop the attributes, skills and experience I have so far, in a role within your company as an Customer Service Administrator.
