Summary

Customer-focused and technically proficient MSc Computer Science student with experience working in fast-paced operational environments and supporting people through volunteering and service-based roles. Strong communication, problem-solving, and organisational skills developed through customer-facing responsibilities, teamwork, and technical project work. Comfortable learning new technologies quickly and passionate about delivering excellent customer experiences while building long-term relationships.

Experience

Royal Mail – Mail Sorter - Norwich, United Kingdom Oct 2025 - Present

Worked within a high-volume operational environment while maintaining accuracy and efficiency under strict time constraints.

Collaborated closely with team members to meet daily processing targets and service-level expectations.

Demonstrated reliability through shift-based work schedules during busy operational periods.

Developed strong attention to detail and problem-solving skills when handling workflow challenges and prioritising urgent tasks.

Maintained performance and accuracy standards during peak periods while working in a target-driven environment.

Customer Service Assistant – Hyperlink Promotions, Mumbai, India 2024

Engaged directly with customers at promotional events, explaining products and answering queries.

Assisted customers in making informed purchasing decisions, contributing to sales targets.

Handled cash transactions accurately and maintained daily sales records.

Built strong communication and relationship-building skills through regular customer interaction.

Volunteer – Social Service – NSS (National Service Scheme), India 2023

Organised community initiatives, health drives, and social events.

Strengthened teamwork, organisation, and leadership abilities.

Supported diverse groups, enhancing adaptability and empathy.

Education

MSc Computing Science – University of East Anglia, Norwich, UK 2026
